In computational science, particle swarm optimization (PSO) is a computational method that optimizes a problem by iteratively trying to improve a candidate solution with regard to a given measure of quality. It solves a problem by having a population of candidate solutions, here dubbed particles, and moving these particles around in the search-space according to simple mathematical formulae ...

Graduates from the MRM3 January 2018 class in Raleigh, NC Marshall Institute, Inc. is recognized by the Society for Maintenance and Reliability Professionals (SMRP) as an approved provider of continuing education and training aligned with key subject areas related to reliability and physical asset management.

Maintenance and Reliability Management Diploma Series

In mathematics, computer science and operations research, mathematical optimization or mathematical programming, alternatively spelled optimisation, is the selection of a best element (with regard to some criterion) from some set of available alternatives.. In the simplest case, an optimization problem consists of maximizing or minimizing a real function by systematically choosing input values ...

POWER7 and POWER7+ Optimization and Tuning Guide

Valuable course for: experienced Maintenance, Operations and Engineering personnel considering or implementing RCM and seeking comprehensive, interactive hands-on training on various reliability centered maintenance implementation steps and common strategies.

Carver PA Corporation :: Reliability Centered Maintenance

Example: Effect of a Component's Reliability in a Series System. Consider three components arranged reliability-wise in series, where , and (for a given time). In the following table, we can examine the effect of each component's reliability on the overall system reliability.

Reliability and warranty are very important in the context of new products. This paper gives an overview of product reliability and warranty and discusses some issues and challenges for future research. Since the industrial revolution started new products have been appearing at an ever increasing ...
