Dimensions of Early Childhood Vol 40, No 2, 2012 3 Science Concepts Young Children Learn Through Water Play Young children can spend countless hours playing with water: pouring it back and forth, watching it spill over

Science Concepts Young Children Learn Through Water Play

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.

The Importance of Play in Promoting Healthy Child

Ms. Elena's Head Start classroom is filled with eager 3- and 4-year-olds. It's center time, and the children have split into small groups.

The Case of Brain Science and Guided Play: A Developing

Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...
