## **Syllabus for B.Tech( Electronics & Communication**

A black hole is a region of spacetime exhibiting such strong gravitational effects that nothingâ€”not even particles and electromagnetic radiation such as lightâ€”can escape from inside it. The theory of general relativity predicts that a sufficiently compact mass can deform spacetime to form a black hole. The boundary of the region from which no escape is possible is called the event horizon.

Methods. This study was inspired by an action research approach, which utilizes intersecting notions of complexity, sensitive listening, collective researcher, evaluation, negotiation and change, moving from research to action and vice versa ().For Thiollent (), the main technique of action research is seminar, in which problems are examined and decisions are taken; data collection is through ...
