site planning and design The previous discussion was intended to provide a background for the heart of this text. Just as there is a legal requirement for a comprehensive plan as the basis for land use controls, so there is a theoretical requirement for comprehensive planning as the basis for sound site design.

Site Planning and Design - West Virginia University

Planning is a noble but underappreciated profession. Planners help communities create their preferred future â€“ good planning makes progress toward paradise while bad planning leaves a legacy of problems and disputes. Planners perform civilizationâ€™s heavy lifting by anticipating and resolving community conflicts.
