Caa is a waste of money, I called in the morning to get my car boosted since my battery was dead from the severe cold. I was put on hold for 40 mins, then told someone would come in 30minsâ€¦waited all day, called back 3 times each time a 40 mins wait, only to find out that they had confused my call with a another call dealing with an auto collusion. and so no one came at all, or called and ...

I frequently get asked questions about whether or not PMP certification is worth getting! I answer those questions on my post about the pros and cons of PMP certification. I've been a PMP certified project manager for a number of years now, and I have found that having the letters PMP behind my name has afforded me some great career opportunities and enhanced my credibility as a project ...

Threads use and exist within these process resources, yet are able to be scheduled by the operating system and run as independent entities largely because they duplicate only the bare essential resources that enable them to exist as executable code.

POSIX Threads Programming - High Performance Computing

When to Use PFX. The primary use case for PFX is parallel programming: leveraging multicore processors to speed up computationally intensive code.. A challenge in leveraging multicores is Amdahl's law, which states that the maximum performance improvement from parallelization is governed by the portion of the code that must execute sequentially.
